

MECHANISMS OF AGEING AND DEVELOPMENT

VOLUME CONTENTS

Volume 43 (1988)

Reversible inhibition of DNA and protein synthesis by cumene hydroperoxide and 4-hydroxy-nonenal	1
M. Poot, A. Verkerk, J.F. Koster, H. Esterbauer and J.F. Jongkind (Würzburg, F.R.G., Rotterdam, The Netherlands and Graz, Austria)	
The aging of the endocrine pancreas of the rat. I. Parameters of cell proliferation	11
L. de Clercq, P. Delaere and C. Remacle (Louvain-la-Neuve, Belgium)	
The aging of the endocrine pancreas of the rat. II. Cytoplasmic parameters of the B-cell, including insulin synthesis and secretion	25
L. de Clercq, P. Delaere and C. Remacle (Louvain-la-Neuve, Belgium)	
Modification of ATP-dependent Ca^{2+} transport in rat parotid basolateral membranes during aging	45
I.S. Ambudkar, B.L. Kuyatt, G.S. Roth and B.J. Baum (Bethesda and Baltimore, MD)	
Cyclic adenosine 3',5'-monophosphate-phosphodiesterases in epididymis and prostate of castrate and of aged rats	61
B. Razzaboni and C. Terner (Boston, MA)	
Effect of vitamin E on lifespan and reproduction in <i>Caenorhabditis elegans</i>	71
L.A. Harrington and C.B. Harley (Ontario, Canada)	
Histology and survival in age-delayed low-tryptophan-fed rats	79
H. Ooka, P.E. Segall and P.S. Timiras (Tokyo, Japan and Berkeley, CA)	
The pathological association between Down syndrome and Alzheimer disease	99
D.M.A. Mann (Manchester, U.K.)	
Albumin elimination in female WAG/Rij rats with age: a longitudinal study ..	137
G.J.M. Jean Horbach, D.K. Durham, S.H. Yap and C.F.A. van Bezooven (Rijswijk and Nijmegen, The Netherlands)	
Vascular tissue (Na,K)ATPase activity and aging in the F344 rat	153
J.F. Hennessy (Winston-Salem, NC)	
The carboxymethylation of cerebral membrane-bound proteins increases with age	161
O.Z. Sellinger, C.M. Kramer, A. Conger and G.S. Duboff (Ann Arbor, MI)	

Lymphocyte proliferative response to PHA and anti-CD3/Ti monoclonal antibodies, T cell surface marker expression, and serum IL-2 receptor levels as biomarkers of age and health	175
H.M. Hallgren, N. Bergh, K.J. Rodysill and J.J. O'Leary (Minneapolis and St. Paul, MN)	
Announcement	187
From physical to biological time	189
R. Lestienne (Los Angeles, CA)	
Morphometrical and biochemical analysis on autofluorescent granules in various tissues and cells of the rats under several nutritional conditions.....	229
T. Sato, Y. Tokoro, H. Tauchi, K. Kohtani, T. Mizuno, H. Shimasaki and N. Ueta (Nagoya and Tokyo, Japan)	
Integral differences among human survival distributions as a function of disease	239
D.A. Juckett and B. Rosenberg (East Lansing, MI)	
Age-related changes in the proliferative kinetics of phytohemagglutinin-stimulated lymphocytes. Analysis by uptake of tritiated precursors of DNA, RNA and proteins, and by flow cytometry	259
G. Lucivero, G. Surico, G. Mazzini, A. Dell'Osso and L. Bonomo (Bari, Pavia and Rome, Italy)	
Rat adrenal zona fasciculata cell electrophysiological responses to ACTH and γ -MSH vary with age	269
J.R. Lymangrover, N.K. Valego and R.D. Shilling (Winston-Salem, NC)	
Studies of sequence heterogeneity of mitochondrial DNA from rat and mouse tissues: Evidence for an increased frequency of deletions/additions with aging.	279
L. Pikó, A.J. Hougham and K.J. Bulpitt (Sepulveda, CA)
